## Sudden Infant Death Support Network of Kansas, Inc.

On Christmas night 2010, before my family and I exchanged our gifts, my niece Kassi stood before everyone and read a letter out loud, leaving me and a few others in tears....but grateful ones. Grateful for being reminded that family and friends haven't forgotten my son, Timothy, who passed away from SIDS on January 24, 2000.

I was so touched and in awe over the fact that an 11 year old girl could be so thoughtful and show what it means to think outside of yourself and to give back.

Below is a copy of Kassi's letter, explaining how a creative and wonderful idea to help with SIDS research, in memory of her cousin, Timothy, came to be. Deep in my heart, I have a feeling that with Kassi's strong willed and loving personality, that this idea of hers will only grow to new heights each year. I live in Denver, Colorado now so it means a great deal to me that my niece is helping me keep Timothy's memory alive through the Kansas SIDS organization. An organization that has helped me a lot in the past 11 years. Thank you, Kassi!

*"Last August on my way to my first soccer game, I saw a bunch of motorcycles going down the highway. I asked my Dad what they were doing and he explained that they were riding to raise money for the charity, "March of Dimes-Bikers for Babies."*

*I told my parents I thought that was really cool and that I wanted to do something like that too. They asked me what I would like to do and I immediately*

*said, "I want to do something for SIDS....for Timothy."*

*So, starting with my first game on that day they told me I could begin. We decided that I would earn one dollar for every goal I scored and fifty cents for each assist for a goal I had. So today I want to present a check to my Aunt Keri on behalf of my new fundraiser, I decided to name, "GOALS FOR SIDS." As of last weekend, I raised \$57.00. My Mom and Dad matched that amount, so the check I want to give to you today is for \$114.00....in memory of our cousin, Timothy, to donate to SIDS.*

*I will continue this fundraiser moving forward and hope to grow it bigger every year." Love, Kassi*

## Network News

**SIDS Awareness Month**—Resources are available to support SIDS awareness. Consider distributing safe sleep materials within your community, submit a proclamation to local government or a press release to local media. Samples of the above are available at [sidsks.org](http://sidsks.org) or [www.datacounts.net/infant\\_mortality/campaigns.asp](http://www.datacounts.net/infant_mortality/campaigns.asp).

**Updated Sleep Position Recommendations Coming Soon**—The American Academy of Pediatrics has reconvened the Task Force on Infant Sleep Position and SIDS. Chaired by Dr. Rachel Moon, the Task Force is reviewing current research and evidence-based practices to help develop new national recommendations. The recommendations will provide the basis for revisions of Infant Safe Sleep materials and trainings.

**MISPERCEPTIONS ABOUT INFANT BEDDING CAN LEAD TO UNSAFE SLEEP ENVIRONMENTS**—A study of African-American parents shows that many still use soft bedding for their infants even though health experts agree it should be avoided to help prevent sudden infant death syndrome (SIDS). The study, "[African-American Parental Decisions About Infant Bedding and Sleep Surfaces: A Qualitative Study](#)," appears in the September 2011 issue of *Pediatrics* (published online Aug, 22). Of the 93 mothers who were interviewed, representing various socioeconomic groups and ages, more than half reported using soft bedding for their infants. While mothers agreed that the sleep surface must be firm, this term meant different things to different people. In addition, some thought that if they used soft bedding (such as blankets, pillows and bumpers) on top of a firm mattress, they were following safety recommendations. Others said that they used the soft bedding to create a safer, more comforting, and/or more aesthetically pleasing environment for the baby. Mothers used blankets because they were concerned about the infant becoming cold. They used pillows to surround the baby in some cases, believing this would prevent falls or keep the infant in a safe sleep position. Crib bumpers were used due to concerns about bruising from crib railings. According to the authors, additional educational messages are needed to change parents' perceptions and practices.

**State Employees**—don't forget you can now give to The SIDS Network of Kansas through payroll deduction in the Community Health Charities Campaign this fall. The SIDS Network of Kansas code is 0051. Thanks for supporting the Network in this way.
